

HARRIS

2010 Customer Conference

OTTAWA, Canada, February 15, 2010—Harris Computer Systems is pleased to announce the details of our 11th Annual Customer Conference. The 2010 Conference is set for October 20th—22nd, 2010 at the Gaylord Texan Resort and Convention Center in Grapevine, Texas. Our Professional Development workshops will run on October 18th and 19th, 2010.

Doesn't everything seem a little bigger, a little grander in Texas? Brimming with authentic Texas style and hospitality, the awe-inspiring Gaylord Texan Hotel and Convention Center fits right in. Overlooking crystalline Lake Grapevine, this spectacular property allows you to experience the energy and excitement of the Lone Star State.

The conference offers attendees a unique opportunity to view our applications and gain even greater value from our solutions. This is an excellent opportunity to meet and network with other customers to exchange ideas, solutions and best practices.

The 2010 conference will include many in-depth, informative sessions and our experienced Support Professionals will be on hand to provide one-on-one assistance at our Support Center. The Partner Showcase will provide our customers with a relaxed environment in which to explore the various types of products and services offered and how they might benefit their respective organizations.

So, mark your calendars and get ready for a high-intensity, highly-entertaining conference!

More information about the conference, including costs, registration and the agenda will follow in the coming months.

About Harris:

Harris is a wholly owned subsidiary of Constellation and is a leading provider of financial management and Customer Information Systems (CIS) software solutions. Since 1976, Harris has focused on providing feature-rich and robust turnkey solutions to all levels of local government, public power and water entities as well as school districts throughout North America. Harris' focus is on creating long-term relationships with our customers and ensuring that we meet the changing needs of our customers over time.
